REWRITING EDUCATION IN NB: If you could do it all again...

Education Reform

The Government is creating a 10 Year Education Plan. You have a chance to tell the government what is working and what is failing in NB's education system. What does the next generation need to learn that you missed out on? How should education be taught? What needs more emphasis? The possibilities are endless, and students are the ones who know best. David Coon, MLA for Fredericton South, is on the Advisory Committee. Come and tell him what you think.
